

ELIXIR's mission is to operate a sustainable European infrastructure for biological information, supporting life-science research and its translation to society, the bio-industries, environment and medicine

*ELIXIR's strategy is to **connect national bioinformatics centres and EMBL-EBI** into a **distributed infrastructure** build from coordinated national and international data resources, tools and services*

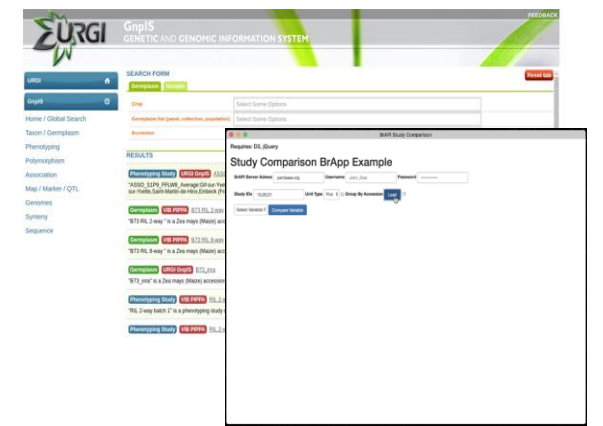

What are the ELIXIR services?

ELIXIR Platforms bring coordinate services provided by our nodes

ELIXIR Communities bring together Node experts and users around standards and ELIXIR services

Plant Community: Standards and services for federated plant phenotyping data

ELIXIR in 2023:

'Well-connected and collaborating Nodes allow users to access and extract knowledge from large and distributed life science data sets'
