EOSC in practice: the Research Data Alliance (RDA)

SARA GARAVELLI
TRUST-IT SERVICES
RDA EUROPE 4.0 COORDINATOR
S.GARAVELLI@TRUST-ITSERVICES.COM
Researchers and innovators openly share data across technologies, disciplines, and countries to address the grand challenges of society.

RDA builds the social and technical bridges that enable open sharing of data.
The strategic partner to represent the data community in EOSC

RDA Members come together through self-formed, volunteer, focussed Working Groups, exploratory Interest Groups to exchange knowledge, share discoveries, discuss barriers and potential solutions, explore and define policies and test as well as harmonise standards to enhance and facilitate global data sharing & re-use.

RDA members collaborate together across the globe to tackle numerous infrastructure & data sharing challenges related to:

- Reproducibility
- Data preservation
- Best practices for domain repositories
- Legal interoperability
- Data citation
- Data type registries
- Metadata
- and so many more!
Apply to an RDA open call for individuals

Open Calls for Experts & Early Careers to support participation to the RDA Plenary meetings

- organised around the world every 6 months
- bringing together a unique community of data science professionals, from multiple disciplines and domains;
- move the community forward in creating tangible deliverables that improve data sharing across disciplines, technologies, and countries;
- working meetings of RDA Working & Interest groups and new potential groups through Birds of a Feather meetings
- presentation of new Outputs and Adoption cases
RDA’s 13th Plenary Meeting
Philadelphia, Pennsylvania
2-4 April 2019

Call for ECRs & Experts open

RDA’s 14th Plenary Meeting
Helsinki, Finland
23-25 October 2019

HTTPS://RD-ALLIANCE.ORG/ - HTTPS://TWITTER.COM/RESDATALL
A neutral forum where existing EOSC initiatives can collaborate

• To promote the EOSC services/resources/approaches at EU & global level
• To gather feedback and address specific data challenges in a global environment
• To roll out RDA outputs & recommendations
RDA Europe 4.0 is offering 8 grants to support the adoption of RDA Recommendations and Outputs.

**Who can apply?**

- Active organisations who can demonstrate take-up of RDA’s outputs and ICT Technical Specifications.

**Expected outputs:**

- Carry out small-scale projects to demonstrate and disseminate adoption of RDA’s outputs and ICT Technical Specifications.

**Call for Adoption Grants at a Glance**

- Each grant up to **15,000€**
- Total number of grants: **8**
- **One wave:**
  - October - December 2018

Find out more about the grants and how to apply!

RDA ICT Specs can facilitate bringing the EOSC to the market

The goal of the ICT technical specifications is to introduce the RDA recommendations for referencing in public procurement processes

• 8 RDA flagship recommendations have been identified as ICT technical specifications
  www.rd-alliance.org/recommendations-outputs/standards

• A third wave of submission is being initiated
  • Research Data Repository Interoperability WG
  • Wheat Data Interoperability WG
  • Research Data Collections WG
  • Publishing Data Workflows WG
The RDA national nodes are pioneering the MSs engagement for future sustainability
Join/become an European National Nodes

EU National Nodes receive “seed funding” from RDA Europe 4.0 grant.

9 nodes established

With 3 calls to fund a further 13 nodes:

1\textsuperscript{st} Call: May-Aug 2018

2\textsuperscript{nd} Call: Jan-April 2019

3\textsuperscript{rd} Call: June-Sept 2019

Total funding available 462,000 €
